Discovering God's World Newsflash

2012

Discoveries

Our theme for January will be Space. We will learn about the eight planets in the solar system and interesting facts for each of them. We will also learn about the Earth's place in the solar system, and how we get our day and night, as well as our seasons.

Our weekly focus:

Week 1 – The moon and Earth; Our day & night

Week 2 – the sun and other stars

Week 3 – The 8 planets

Week 4 – A trip to the moon!

Vocabulary

revolution – a complete circle made around something.

rotation – a turning motion around an axis or a fixed point.

orbit – the path that an astronomical object such as a planet or moon follows around a larger astronomical object such as the sun.

solar – relating to the sun.

ASL Bible Verse

"It is not rude, it is not self-seeking, it is not easily angered, it keeps no record of wrongs"

Corinthians 13:5
